

Job 39

1. Chapter 38 revealed God's wisdom and power as seen in nature and meteorology. Continuing from verse 39 of chapter 38, this chapter addresses God's wisdom as seen in what?

2. What is learned about God's wisdom and providence from the mountain goat? (vs. 1-4)

3. List some of the attributes of the wild donkey? (5-8)

4. Depending upon your translation, verse 9 references a "unicorn," "wild ox," or even "buffalo" (Darby), or "rhinoceros" (Vulgate). Strong evidence exists for it being a rhinoceros, but regardless:
 - a. What attributes does it possess?

 - b. How do these attributes reflect upon God's purpose and design?

5. The animal in verse 13-18 is most likely the ostrich.
 - a. What peculiar attribute is mentioned in regard to its young?

 - b. Why does the ostrich "laugh at" (scorn) the horse and its rider?

6. What animal is discussed in 19-25?

a. What features and aspects of this animal are discussed by God?

b. Special emphasis is placed upon *what particular* use of this animal? (along with this text, you can use Proverbs 21:31)

c. What warnings did God later give to the Jews regarding these animals? (Deut. 17:16 & Isaiah 31:1)

7. What two predatory fowls are discussed in verses 27-30?

a. What aspects of their design are cited by God? (particularly of the later bird)
